

Made some smart choices lately?

You could be the next La Grange Park Green Spotlight Award Winner!

Are you making changes in everyday ways for the health of our environment? We want to know about it! The Village of La Grange Park Sustainability Commission wants to recognize residents who have taken actions to become more sustainable and share their experiences with the rest of the community.

Have you or someone you know taken steps to become more green? Tell us what you are doing and you may have the next Green Spotlight Home.

Submitting an application is easy—just provide name, address, phone number and email and briefly describe the Sustainable Steps.
